## Wavian Storm Bags: The Ultimate Flood Protection Solution

Experience superior flood protection with StormBags, the revolutionary sandless sandbag.

Weighing only 0.45 kg (1 pound) dry, StormBags expand to over 15 kg (33 pounds) when hydrated.

Just add water, and within 3-5 minutes, each bag absorbs up to 18 litres (4 gallons), creating a robust water barrier.

### Benefits:

- Hydration Capacity: Each bag absorbs approximately 18 litres (4 gallons) of water in 3-5 minutes.
- Long-Lasting: Bags dry out in about two weeks under hot, dry conditions, but remain at full size indefinitely if exposed to water.
- Plant-Friendly: Non-toxic contents and biodegradable materials make them perfect for use around trees and bushes during droughts.
- Eco-Friendly Disposal: Can be disposed of in landfills or reused for plant hydration after drying.

### Specifications:

- Weight (Dry): 0.45 kg (1 pound) – total weight of 25 StormBags is approx 11.5kg
- Weight (Hydrated): 13.6-15.8 kg (30-35 pounds)
- Absorption Capacity: 18 litres (4 gallons)
- Hydration Time: 3-5 minutes
- Dimensions – each bag (dry) 620mm x 415mm x 220mm
