

20 Litre Steel ExploSafe Jerry Can - Yellow

SKU: JC0020YEX

Description

The Explo-Safe fuel can has all the safety features of our classic Wavian Jerry Cans with the addition of an innovative aluminium mesh inside the can. This incredibly fine honeycomb structure takes up just 2% of the can's volume, and serves to dissipate heat within the can so that the fuel inside the can will not ignite explosively in the unlikely event of it being exposed to sparks or naked flames. Image shows the inside of the can.

Suitable for the safe storage of petrol and diesel.
