

20 Litre Water Container

SKU: HUN22-WATER

Description

Ultra high-grade container made of fracture-proof polyethylene (HDPE). Natural coloured with UV protection, suitable for the storage of many liquids. The container has a large opening (48 mm diameter) to allow easy filling, emptying and cleaning and a gripping surface on the base for secure handling. A blue spigot (tap) is included and is neatly stored within a recess in the container when not in use.

Also available in larger pack sizes. High quality 20 Litre Heavy Duty White HDPE Plastic multi-purpose container suitable for food use. The container is also resistant to greases, resins, alkalis, oil and acids.
