

## Smart Spout with Bayonet Fitting

SKU: JC00SMARTS

### Description

This special stub nose 'smart' spout uses a manual spring action to dispense fuel at a slower, more controlled rate. The dry break is an added safety feature that ensures no source of ignition can penetrate the can from the spout area. This spout is ideal for the filling of smaller tanks eg, chainsaws.

### Key Features

- Optimum flow is assured when using our spouts with our cans
- Special breathing channel provides steady, glug-free pouring
- Internal filter to protect charging tank from dirt and foreign bodies

*Suitable for 5L and 10L Bayonet style Wavian Jerry Cans only.*
