

10 Litre Stackable Container

SKU: PL10LNATSTACK

Description

The 10-Litre Stackable Plastic Container is the perfect solution for storing and transporting liquids in industrial and commercial settings. Made from high-density polyethylene (HDPE), this container is 100% recyclable and designed for long-lasting durability.

Compatibility

Some chemicals and process parameters can affect the integrity of the container. The buyer must undertake testing and approval for the containers' suitability for the product and application. Raw materials are REACH-compliant and are safe for food contact. Standard tolerance of +/- 5%. Specification is subject to change, contact us for more info.
